FEF: Small Fry Mine, M/037/022, San Juan County, Utah

TO: Paul Baker

I missed you, I went to the Mine on the 11th..

There is grass emerging and some shrubs and forbes.

Western wheatgrass, Indian ricegrass, 4-winged salt bush, and some flax are getting well established. The weather has been doing some favors in the amounts of moisture we have recently received.

The enclosed photographs show the progress. There are some vehicle tracks and Denice Swanke's signs have been discouraging unwanted traffic. Thanks Denice.

Ray Cherniske with Molycorp located at Questa, New Mexico shall be involved with the final on this project as I shall be finished with Unocal in December this year. I have enjoyed the co-operation you have expressed with this project. Thanks.

Respectfully,

A handwritten signature in cursive script that reads "Richard L. Brammer".
